I received from him a surprise Award for my personal contribution to CCRM global activity.

B-3; GIS FORUM TOKYO #84 & Open Technical Forum Tokyo 2013-3

October 4 (Fri)   13:30 -- 20:30   Tokyo American Club (Azabudai), Tokyo

Commemorative Speeches on the Announcement of O-DA V.1.0 from Japan O-DA: The Open Group-Dependability Through Assuredness)

Theme; "From Architecture to Dependability & Assurance"

This objective is the official announcement of O-DA V. 1.0 The Open Group Standard to

Japan business world to appeal the value of the standard to Japan IT society to use them in real market and report back to the world openly. I have spent quite a bit of my time and money through ReGIS Inc., as Representative of The Open Group Japan, worked with Dr. Mario Tokoro, leader of DEOS, JST project for two years and performed my long standing dream to make a standard contribution from Japan Open Group Members to the world Standard as the first time was admitted and announced internally within The Open Group by Allen Brown At July 15th Philadelphia Conference at the plenary of The forum but outside officially released through news channel to the world on July 7th US time. So we have done on 8th of July through news.

Nikkei Ryutsu newspaper took a wide pages to announce O-DA V.1.0 standard as you can review at http://www.re-gis.com and followed by end of November at "Nikkei Computer" I wrote the thesis explaining how to embed the O-DA in TOGAF EA activities in ADM cycle as down loadable from; http://www.re-gis.com Information. How to embed the O-DA in TOGAF EA Activityes of ADM cycle.

B-4; GIS FORUM TOKYO #85 & Open Technical Forum Tokyo 2013-4

December 5 (Thu) 13:15 -- 20:00 Tokyo American Club (Azabudai), Tokyo

Theme; "Global cloud, business trend and its architecture"

We are concluded this 2013's ReGIS research works holding 85th GIS Forum since 1996 July focusing on Cloud and Innovation & Architecture inviting John Madison, X-IBM director of Airline support centers for the world and my 45 years friendship, this is his 3rd engagement at ReGIS Forums.

(C) TOGAF Practitioners Seminars (4Days);

We certified 279 architects this year on TOGAF 9 and including version 8, all together certified members became 541 people cumulatively.

C-1: March 13 (Wed) -- 16 (Sat) 4days   TOGAF 9 Training Course #14

C-2: May 15   (Wed) -- 18 (Sat) 4 days   TOGAF 9 Training Course #15

C-3: August 21 (Wed) -- 24 (Sat) 4 days   TOGAF 9 Training Course #16

C-4: November 13 (Wed) -- 16 (Sat) 4days   TOGAF 9 Training Course #17

(2) The Open Group Activities;

Dependability through assuredness and JF slogan of ABCDEF-J started 2006 much on formal methods and TOYOTA's strong requirement for Dependability was a driver.

2008 &2009, Hitachi, Fujitsu, NEC and Toyota received a great impact from Economic and accidental dependability issues and all got out from The Open Group, but instead, Mario comes

in as the member and expressed his vision of Open System Dependability to be The Open Standard in right.

After 2 years of hard works, Mario and I, spend all 8 The Open Group sessions for almost dedicating to introducing DEOS and integrating with TOGAF concept and security standards in Real time Embedded systems Forum where " dependability Through assuredness " was formed as a trade mark, with the strong support of Allen Brown and Joe Bergmann, completed my commitment 2 years ago to challenge Dependability through assuredness standard to be made and implemented right after devastating 3•11 tsunami and nuke disasters in 2011 and disaster .

The Open Group Conference in Newport Beach, CA, USA
  January 28 (Mon) -- 31 (Thu)

"AEA-Japan"Forum #3 & Open Technical Forum 2013-1
  February 14 (Thu)   Yamada Bldg (Shinjuku-gyoen), Tokyo
  Theme; "AEA Japan LinkedIn Kick Off"& Feed-back of Newport Beach
  Conference"

The Open Group Conference in Sydney
   April 15 (Mon) -- 18 (Thu)

The Open Group Conference in Philadelphia
   July 15 (Mon) -- 18 (Thu)

The Open Group Conference in London
   October 21 (Mon) -- 24 (Thu)

(3) CRM Associations Activities 2013; J.Fujieda, Representative Director of CRM Association since 2000.

Monthly CRM Best Practice Award winner presentations as an member only Education Workshop had been very successful assembled in Shinjuku CRM office and We did Web based road casting to local cities like Kansai(Kobe), Chubu(Nagoya), Okinawa(Naha), Tokyo, Hokkaido(Sapporo), and Mie(Ise) Prefectures.

One other successful Working group is on big data and business intelligence research on CRM and customer behavior.

In 2013, we renewed the education program on SNS starting 2013 and got an excellent feed back from attendees.

CRM Kansai Forum 2013 hosted by Kobe City
May 22 (Wed)

CRM Chubu Forum 2013
May 24 (Fri)

CRM Okinawa Forum 2013
June 18 (Tue)

General meeting of CRM Board Members
July 3 (Wed)   Tokyo American Club (Azabudai), Tokyo

CRM Summit ; *(success ; Refer* *GIS FORUM TOKYO # 83)*
July 3 (Wed)   Tokyo American Club (Azabudai), Tokyo

CRM Hokkaido Forum 2013
July 26 (Fri)

CRM Best Practice Awards 2013 organized by CRM Association Japan
November 8(Fri)

Mie CRM Forum in Ise city
November 26(Tue)

(4) Academic activities reviews;-2013

March, Shinshu University Business School Graduation Papr sessionApril to Every Month;

2 times a month attending Kyoto University Architecture Governance Committee as Kyoto Univ. IT Advisor. We published a long range Kyoto University IT plan heading for 2025 November, Invited Speaker "Architecture and dependability" ISSRE 2012 at Dallas.

Buddha, Copy of Shaka ,sitting statue ,Matsumoto city,
Shakado, Shinran, Picture of Statue, Author, Seifu.

(5) Buddhism Priest Activities;

May,	Eitaikyo (Sutra reading service tradition) at Ryokeji temple , Echizen city
November,	Houonko;(Thanks giving services for St. Shinran) at Ryoukeiji temple;
	We served 7th annual memorial for our mother Jisokuin Shaku , Myouei.

Please refer; Through Regis.com: http://www.re-gis.com/

Direct to Ryokeiji; http://ryokeiji.net/english/index.html

Buddhism Priest activity will be increased in Cyber Temple, actually starting as HP and some blogs but I think our temple headed by Koju, Brother, in Echizen city, Ryokeiji has a best clean style and contents so please visit them.

2013 May   Eitaikyo （Sutra reading services）

2013 June 3 days visits to Kanto St. Shinran's sacred places

2013 November 3rd   Jisokuin Mother's 7th anniversary services

Houonkou (Thanks giving to St, Shinran)

2014 May or June St. Shinran's 750 years anniversary and 400 th years Ryokeiji Foundation; Welcome visitors from abroad.

Manifesto of JF ReGIS & The Open Group
Load to ABCDE Framework became O-DA Standard
(Dependability Through Assuredness)

ABCDEF (Architecture Based Compositional Dependability Ensuring Frame-work)

Upon strong requirement from TOYOTA (who was The Open Group member) on Dependable Software in 2006, I started a series of discussions with Joe Bergmann, RTES Forum Director and John Anton, Board member at that time, and kick offed the presentation with Mr. Kazuaki Minami., senior project director on April 23, 2007 Paris, at the first day plenary of The Open Group conference with Katsutoshi Shintani, IPA Japan theming.

< The Bridge of Architecture and Implementation via Assurance of True Requirements>

(http://archive.opengroup.org/public/member/proceedings/q207/23PL.htm#streams),

I tried to bridge TOGAF of EA into much solution level of "Dependability architecture assurance" via Enterprise architecture, Solution architecture modeling, Assurance case on Dependability, via formal V&V "Through assuredness with sufficient evidences" with long range vision of transforming TOGAF into " Computable TOGAF".

After series of major project sponsors, Hitachi, Fujitsu, and NEC's consecutive retirement from board member followed by Toyota's business problem and change of Government from LDP, all supporters are gone except me..

But in 2011, luckily enough, I found Dr. Mario Tokoro, supported by Science and technology agency of Japan trying to make his 7 years project, DEOS to be open standard via ISO/IEC;

De jure standard as Open systems dependability of their Dependable Embedded Operating System .So, from 2011, with the help of Dr. Shuichiro Yamamoto, Nagoya university, I started to bridge TOGAF ADM process with their Dependable Assurance Cases first as a RTES Standard Dependability Assurance case receiving the support both from academic and The Open Group, CIO & CTO levels with biggest concerns on Accountability of performing the best possible appropriate management job. In 2013, starting from Jan, in LA, conference, Ed Robert and I dedicated our support at the Open Group conference, letting Mario, Shuichitro and Yutaka Matsuno team to propose their DEOS technology into the Architecture based Compositional Dependability Ensuring Framework (ABCDEF) as the dependability assurance standards of The Open Group through RTES Forum. We made an Dependability case concluded as Version 1.0 standard but, over and above assurance case, it take a long stride to propose the concrete standard with DEOS repository and database and formal methods with much monitoring capability for automated remedy formation or Disaster recovery in case of exceeding the architecture scope limits happen.

(Fin)

Yours Sincerely, Junkyo (Jack) Fujieda
