Mr. Norishige Morimoto,
Chief Technology Officer and Vice President,
IBM Research & Development – Japan,
IBM Japan, Ltd.

_____

[Speaker Profile]

Norishige (Noly) Morimoto joined IBM Yamato Laboratory in 1987 as a hardware engineer. After he earned a master's degree from the Massachusetts Institute of Technology (MIT), he joined IBM Research-Tokyo (TRL) in 1995 and led multiple research projects such as Digital Watermarking, Digital Rights Management, and Mobile Computing. In 2004 he worked as a managing consultant at IBM Business Consulting Services to deliver new technology to clients and consulted innovation management process to various companies. In 2006, he was transferred to IBM Watson Research Center, and in 2008, he led the work to expand the global IBM research network to growth countries. He became Director of TRL in 2009. In 2015, he took a new position as VP & Chief Technology Officer (CTO) in IBM Asia Pacific stationed in Singapore. In 2017, he returned to Japan and was appointed as VP of IBM Research & Development in Japan, and since July 2020, as the CTO of IBM Japan.
